Title: Papal bull

Language(s): Latin

Incipit: Pope Benedict XIII to the bishop of Worms, Germany, giving Peter Adam Greuen a canonate and prebend at St. Martin's in Worms.

Notes: Issued in Rome at St. Peter's, on the third of the Nones of July 1729, in the sixth year of the pontificate of Benedict XIII. Words and phrases appear to have been erased and rewritten in lines 4, 11-12, 31, 39. Benedict XIII had previously appointed Greuen to the deaconate at St. Martin's left vacant by the death of George Frederick Deuerkauff, but Greuen was never given possession of that position. (see also UTS 037-01 and UTS 037-26) The canonate and prebend were expected to return an annual income of 24 gold ducats de camera.
